CyberStreams, Inc. provides virtual IT administration services for small and medium sized businesses. When it comes to technology, we can help increase your business productivity and at the same time lower costs. Think of us as your "Outsourced IT Department".

Faster Response

No Travel Charges

Allow users to get direct help rather than go through point of contact

Only need internet connection

Help wherever you are

Solve 90% of most common workstation issues

Most issues that preventative care can't catch are at the workstation level. Many times the fixes for these issues are quick and easy. HelpDesk gives you a fast and easy way to get those issues resolved and get you back on your way doing business.

One travel time charge alone is usually equal to or greater than the monthly subscription charge for HelpDesk. Save multiple travel time charges on those small items by having these problems fixed remotely.

Whether you are on the road or at the office, HelpDesk is your solution for getting your workstation issues fixed.

Take care of small issues quickly and efficiently so your business can continue working without wasted time.

Your business is dependent on technology, as are your competitors. Let CyberStreams make the most of your current technology investment as well as plan for the future. Your business deserves technology that allows you to get your job done efficiently and as effectively as possible.

CyberStreams has the technology answer for your business.
